39 Placement Interviews generating Job Placement Offers for 130 Students in 2013-14, and

33 Placement Interviews generating Job Placement Offers for 144 Students in 2012-13, we at the

University Placement & Counselling Cell of our esteemed Navsari Agricultural University; are pleased to announce that **the 7th**

Campus Recruitment Drive of Placement Programme 2015-16 of KF Bioplants Pvt. Ltd. is to be

held **during the April month**. The details are as follows:

KF Bioplants Pvt. Ltd. – www.kfbioplants.com

- ☞ The KF Bioplants Pvt. Ltd. is the **country's largest plant tissue culture & young plant production company** located at Pune; 150 km South of Mumbai in India.
- ☞ They have 52 acres of operation spread over 3 locations which includes 9000 m² state-of-art tissue culture lab & fully monitored green houses of 6.5 Ha.
- ☞ They predominantly produce plants of various ornamental flowering species. This is a Dutch joint venture with Florist Holland; The Netherlands. They do have ventures for contract production under confidentiality agreement with 12-13 other companies/breeders worldwide for their varieties. The total strength of the company is over 900 people working year round at KF Bioplants.
- ☞ Their shares in Indian floriculture industry as a young plant supplier are **more than 92%**. They have well-established marketing team of about 35 qualified technocrats country wide. To provide technical back-up to growers at their doorstep is company's strength. They have established a bench mark in Indian horticultural field for cultivation practices with our experience n expertise. They do export in-vitro, ex-agar & young plants to almost 30 countries around the globe!
- ☞ Since past 3 years; they have also established Strawberry plant production apart from flowering plants and selling few million young plants in India. They are also exploring the exotic vegetable market since we have strong base of growers as well nurserymen countrywide. KF Bioplants has the complete assortment of flowering plants, vegetable young plants n fruit plants & forestry plants.
- ☞ Recently, they have expanded & established a state-of-the art additional plant tissue culture lab of about 3000 m² which will produce 16 million plants in addition to existing 45 million plants production per annum.
- ☞ They are looking for **Fresh M. Sc. (Agriculture) candidate**; to work and excel with them...to join their dynamic team which is continuously excelling and causing exponential growth.
