SUB:-INVITATION-CONFEDERATION OF EDUCATION EXCELLENCE AWARD 2016

Modern Education system is becoming more techno based where IT related activities are playing an important role in teaching different subjects from school level to university level. Each institution is competing with others to have latest techniques in their institution to attract more number of students. The young generation feels that material success in life can give them good living and happiness. Modern technology is hampering the creative thinking of students.

In the current system rat race technology is replacing the place of the teachers. The honor and respect, which the educators were getting earlier, has been disappearing slowly. "Guru Sishya Parmpara" of Vedic age is not found in present education system, due to which Quality in Education is depleting and generating discontentment in the society.

PSVCI / 176816
Dt. 30/06/16

CEE being very active in the field of education, felicitate the values, hard and innovative work of teachers by appreciating and rewarding them every year. This year again CEE has planned a seminar on **Vedic Education – 'A Foundation Stone of Modern Education'** along with award function to be participated by the institutions and teachers of all level on **3rd September 2016**, in order to make the above function a big success we look forward for your cooperation, association and participation by

Handwritten notes in green ink on the left margin.

- Abide the rules and regulation of the Award.
- Abide the decisions of the judges which will be final conclusion

(Name of the Declarant)

(Position)

Respected Sir / Madam,

SUBJECT - CONFEDERATION OF EDUCATION EXCELLENCE AWARDS-2016

There is no doubt that Western Education System was pioneer in the world for the various advancements in the field of science and technology. Which opened up the doors for liberal, scientific and rational thinking besides widening the mental horizons forcing especially young people of Indian intelligentsia but now the system of education at all stages is making our minds, just a store house of knowledge with least emphasis on creative thinking.

In present times pursuit of material success is the main objective in the minds of young students. It is making them more and more selfish and intolerant to others in the race to be winners. They are drifting almost rudderless without sense of direction. Sound academic background, stable career and good earning are important in life for happiness and satisfaction but equally important is living a quality of life, humanity, compassion and self discipline for fully contended life. This concept is required to be emphasized to the youth at large for the healthy nation building.

For building an ideal structure for education, an amalgamation of Eastern culture and Western methods, liberal thinking and overall advancement in science and technology would be the best in the overall interest of our future generations. In this regard choosing the relevant and applicable portion from Vedic Education would also be a right step. The emphasis on profession integrity, values, honesty and a social responsibility towards the needy people and enrolment along with the modern concept of education should make individual more happy, committed and over all contended in life. In the modern rat race of materialism and attaining higher education is still leading to discontentment and never ending desired. To overcome these issues Vedic Education should be also to thought some height and give positive solutions.

Keeping in view the above aspects and being very active in the field of education CEE has planned a seminar on **"Vedic Education- A Foundation Stone of Modern Education on 03rd September 2016 at Crowne Plaza Hotel, Rohini** along with the Award function to appreciate, acknowledge the unique and innovative work done by the teachers and institutions in the field of education.

The Topics for Discussion for seminar which will be enlightening the summit are as under:-

1. Relevance of Vedic Education in the present Era.
2. Indian Education Era
3. Gaps between skill and Employability.
4. Importance of Audit for Enhancing 'Quality in Education'

The process for CEE Awards 2016 will commence with the release of "Call for Nominations". For the purpose of these awards, the nominators and nominees need not be the members of CEE i.e. it is open to all. You are requested to extend cooperation by nominating suitable person(s) for the CEE awards.
