Being a tremulous and hopeful hunter in the job jungle; the fresh passing out students may feel totally inadequate to showcase their professional capabilities in the written form (CV / Resume), which will create their image in the mind of the interviewer even before they walk in for the interview. So, they need to write an effective resume / c. v. / bio-data. And ironically, for most of them, this might become a night mare!!! Even after getting an interview call from the prospective employer, they may feel unprepared and nervous, as it is always difficult for a job seeker, to face the interviewer, *especially for freshers who are just out of college*, seeking a job. **Most people do badly at job interviews not because they are incompetent; but simply because they are just plain nervous.** On the day of interview, sweating palms and stomach butterflies are to be expected. But, good news is that writing an effective resume & giving interview is a skill, and just like any other skill, it too can be developed. One can reduce the stress level by knowing some common mistakes that candidates make in preparing their CV/resume as well as while meeting with potential employers and avoiding them.
