Dear Sir / Madam,

Greetings from the Department of Foods and Nutrition!

We are pleased to invite you to attend the regional seminar on 'Food Product Development – from Concept to Consumer' on 3rd March, 2017 in Vadodara. The seminar is being organized by the Department of Foods and Nutrition, Faculty of Family and Community Sciences, The Maharaja Sayajirao University of Baroda under the auspices of the UGC DSA SAP III program in collaboration with the Foods and Nutrition Alumni Association.

Rising populations, changing lifestyles and a growing disease burden have brought about an urgent need to develop innovative, sustainable and healthy food products. Developing new products is a complex process requiring knowledge of ingredients, processing techniques, packaging material, marketing, consumer demands and preferences. It includes improvement to existing products, product line extensions, new product lines and 'new to the world' innovations. The purpose of this seminar is to provide a forum for discussions that will define further work in the area of food product innovation and to enhance competencies of the participants on all aspects of food product development-from concept to consumer.

We look forward to active participation by you. Please note that seats are limited and subject to availability. Therefore, we encourage you to register before 18th February, 2017. The completed registration form along with a Demand Draft or Cheque drawn in favour of "**Food and Nutrition Alumni Association MSU**" should reach us on or before 25th February, 2017 by post. Kindly find attached herewith the registration form.

For any enquiry, please contact us at

Tel: 0265-2795526,
