At the outset, Dr.M.R.Bhatt Associate Professor and PI of project welcomed all the Dignitaries and Scientists. With the permission of Hon. Vice Chancellor, the Chairman, meeting was started as per agenda items.

Action Points:

1. Dr.M.R.Bhatt (PI) presented the progress of the project for the year 2016-17. Correspondence with ICAR for funding for the next year should be started.
(Action: Dr. M.R.Bhatt, PI and Nodal Officer, FFP)
2. Collect the data of soil and soil properties, fertilizers used by farmers and yield of the crops for which the module was prepared before the treatments given to the selected farmer's field .After completion of project, again data will be collected for comparison and effects of the treatments will be analyzed.
(Action: Dr.V.P.Ushdadiya, Co-PI and their team members)
3. Check that the sowing of brinjal is practiced in summer season for this area and variety of tomato is from university.
(Action: Dr.S.J.Patil, Co-PI and their team members)
4. The treatments given in the fruit crops to check the fruit drops should be recommended from university.
(Action: Dr.B.M.Tandel, Co-PI and their team members)
5. Collect the data regarding health, feed of the animal and milk production of animal covered under project and take the data of untreated animal from the same farmers to analyze the effect of treatment. Include Dr.L.M.Sorathiya Assistant Research Scientist, (LRS) in the project team.
(Action: Dr.N.B.Patel, Co-PI and their team members)
6. Other income generating activities should be identified and plan to introduce to the targeted women groups of module for their sustainability.
(Action: Dr.A.K.Leua Co-PI and their team members)
7. All the planned activities of the module should be started as per action plan 2017-18.
(Action: Dr.H.M.Viradiya Co-PI and their team members)
8. Farmer's selection, problem identification and base line data before the implementation of the module should be collected with the help of PRA. The data should be in line with the performance indicator stated in the module. The list of the selected farmers of the module from three villages, photographs of input distribution and technology applied on the field by the farmers should be submitted to the PI. Planned activities of the module for the year 2017-18 should be carried out by time to time and submit data and information to the PI for reporting to the ICAR.
(Action: All Co-PIs and their team members)

The meeting was ended with the thanks to the chair and all members.
