Dt: 23/05/2012

CIRCULAR

Department of Information Technology, NAU has installed and configured Antivirus Campus Server. Now, all staff members can take benefit of this Antivirus Software in their computers/laptops. Installation link is available in Internet Authentication page (Internet Login Page). You can download antivirus and install in your system from campus network. Please take care of installing appropriate version of your operating system while downloading antivirus installation file.

This antivirus software will only work in university campus local area network. Antivirus software can not be installed outside university campus. Installation of antivirus software outside the campus may crash your system and for that individuals are responsible.

In case of difficulty with installation please approach IT members from institute.
